Business Poultry Breeding
Company Status PMDN

Financial Performance: The Company booked net income amounted IDR 11.796 billion in 2011, lower than last year income worth IDR 62.130 billion.

Brief History: Multibreeder was established on 13th February, 1985. It was granted a sole distributorship and a license by German company Lohmann Tierzucht GmbH, to import and breed parentstock in Indonesia. Shortly afterwards, when the importation of parent stock was banned, Multibreeder was granted similar rights with regard to grandparents-stock. From the single breeding unit established in 1985 the company has rapidly expanded to ten breeding units in 1993, covering a total area of approximately 180 hectares. Production levels in 1993 reached more than 50,000,000 day old chicks and, as the extensive facilities currently under construction come on-line, production will increase substantially in 1994. It was in 1991 that Multibreeder became a subsidiary of PT Japfa Comfeed Indonesia, and it still values highly its synergic relationship with its parent company which ensures it is supplied with chicken feed of the type and quality suited to Multibreeder's chicken stain.
