Business	Textile Industry
Company Status	PMDN

Financial Performance: In 2010, the Company booked net income at IDR 1.191 billion, while previous year booked net income at IDR 75.744 billion

Brief History: Panasia Indosyntec was founded in 1973 as a downstream manufacturer producing high quality polyester ladies fabrics, under the name of PT. Harapan Djaja Empat Saudara and in 1990 changed to PT. Hadtex Indosyntec and currently under brand name to PT. Panasia Indosyntec tbk. more properly representing the robust and competitive organization which had developed.

Since 1975 the plants have been located on Jl. Moh. Toha, South Bandung which is the textile center of Indonesia. The subsequently expanded plants now cover 60 hectares in and around that location.

The rapid growth of our Company as well as the industry itself led us to secure the quality supply of our raw material requirement. As a consequence, our Company established upstream polymerisation plants with state of the art equipment to produce polyester yarn and fibre. These polymerisation plants currently produce an aggregate 80.000 M/T yarns and fibres. The product range is expanding rapidly under the guidance of marketing oriented Research and Development. These products are now sold to domestic and overseas companies and within the Panasia Group.

In our downstream factories, weaving units utilises shuttle looms, rapier looms, water jet looms, and air jet looms. The weaving printing and dyeing units area largely managed by PT. Panasia Filament Inti, a Panasia Indosyntec subsidiary. The annual production is 60 million yards of polyester fabric. A further Wool Division produces worsted wool yarn currently exported largely to Europe.

Panasia Indosyntec and its subsidiaries have thus become and integrated textile group producing polyester yarn, fibre and ladies fabrics and also worsted wool yarn.
