Business	Tin Mining
Company Status	BUMN

Financial Performance: In 2010, the Company booked net income worth IDR 947 billion, increase from IDR 313 billion booked in 2009.

Brief History: The company represents a merger of three Dutch mining companies with operations in Indonesia: Bangkatinwinning, Gammenschappelijke Mijnbouw Maatschappij Billiton and NV Singkep Exploitatie Tin. The operational area of the company encompasses Bangka Island, Karimun Island, and coastal areas of Sumatra. Of its 786,657 ha of mining rights, 458,134 ha are onshore, the remainder being offshore. In 1994 Tambang Timah produced 34 thousand tons of tin, marketed under the trade names Bangka, Mentok, and Bangka Low Lead (BLL). Bangka tin is of a minimum 99.50% purity, while Mentok tin is of a minimum 99.85% purity. BLL is of the same quality as Bangka, but with the lead content reduced from 0.036 to 0.02 %, or to a maximum of 0.05% on request. Commercially viable by-products are monazite, ilmenite, zircon, and xenotime. Approximately 95% of the tin production is destined for North America, Europe, and Asia, the remainder used to satisfy domestic demand. The first of the two wholly-owned subsidiaries is PT Indometal Limited, London, the marketing agent for Europe. The other is Indometal Corporation, New York, responsible for marketing in North America. On going public, Tambang Timah undertook dual listing on the Indonesia capital market and the London Stock Exchange (LSE). The company listed 50.33 million (10%) of its series B shares on the Jakarta Stock Exchange (JSX) and the Surabaya Stock Exchange (SSX), offering shares at Rp 2,900 each. Company listing was done at the same time, bringing the total number of listed shares to 503.30 million. On the LSE, the company listed 125.825 million shares (25%) in the form of global depository receipts (GDRs). The company also has a 20% interest in PT Koba Tin, a joint venture with Kajiro Mining Corporation Limited of Australia established to mine mining in the Bangka island chain. The company has set the year 2000 as its target for becoming a multi commodity producer. To achieve this it began mining gold at Natal, North Sumatra, and in Kalimantan, with an initial investment of Rp 100 billion. The company won government concessions in February 1997 to explore for gold and coal in Sumatra, Kalimantan and east Java. To bolster operations, the company formed three new subsidiaries: PT Timah Investment Mineral, PT Kutaraja Tembaga Raya and PT Dok & Perkapalan Air Kuntung. Then the company went on to construct Belinyu Industrial Estate on a 1,500 ha site in Bangka Island. With a mix of both local and foreign investor interest, this industrial estate is placed under the joint management of the company and the local provincial and regional government. Around mid-May this year, the company is scheduled to acquire a stakeholding in PT Berau Coal, a company in the Astra group involved in coal mining operations. Also about to be purchased are shares in PT Kaltim Prime Coal and Tambang Emas Okiral. As approved by the 1998 General Meeting of Shareholders, Tambang Timah will function as holding company, responsible primarily for long term strategic planning and overall operations of its subsidiaries. All mining facilities, support operations and company assets will be moved to subsidiaries PT Perseroan Industri and PT Perseroan Explorasi. This stock is now trading on the London Stock Exchange. The proposed privatization of this company has reportedly been postponed until restructuring is complete, with Aneka Tambang as holding company of six subsidiaries.
