Brief History: PT Citra Kebun Raya Agri Tbk. was established on 19th September 1990. Originally engaged in housing development and building—particularly for low and middle-income families—CKRA is now an integrated, full spectrum plantation and bio resource company with a focus on the planting, processing, trading, and transportation of agricultural and plantation products.

The move into the agricultural and plantation sectors has improved the company's financial performance with excellent prospects. Our core plantation activities include growing, harvesting, and processing oil palm to produce crude palm oil, palm kernel oil, and biodiesel; plus growing, harvesting and processing cassava and sago to produce starch and bioethanol. The company specialises in the upstream (growing and harvesting) and midstream (processing) of oil palm, cassava, and sago. In future, we will also offer downstream processing of Oleochemicals from oil palm, and nutraceuticals and biomedical products from cassava and sago.

CKRA also has strategic alliances and joint ventures with Chinese Provincial Government companies to handle trading, branding, marketing and distribution (warehousing and logistics) of food and fuel products sold to China. CKRA adopts a company-wide Minimal Impact Harvesting Policy.
