Brief History: PT Indocement Tungal Prakarsa Tbk. ("Indocement" or the "Company") is one of Indonesia's major producers of quality cement and specialty cement products. The Company was established in 1985 and has integrated cement operations with a total annual designed production capacity of 17.1 million tons of cement. It currently operates 12 plants, nine of which are located in Citeureup, Bogor, West Java; two in Palimanan, Cirebon, West Java; and one in Tarjun, Kotabaru, South Kalimantan.

Since 2005, the Company has diversified its product range by introducing Portland Composite Cement (PCC) in the market. The Company also produces other types of cement namely Ordinary Portland Cement Type I, Type II and Type V, as well as Oil Well Cement and White Cement. In early 2010, Indocement is expecting to complete the installation of new cement milling facilities at its Palimanan Factory, which will expand the Company's annual designed capacity by 1.5 million tons of cement to reach 18.6 million tons of cement per year.

On October 15, 2009, Indocement received a Gold Rating from the Environmental Performance Rating Program (PROPER), 2008-2009, for its Citeureup operations. Additionally, Indocement's operations in Palimanan also garnered a Green Rating from the program. PROPER is an initiative of the Indonesian Environment Ministry that encourages companies to implement sustainable environmental management. Indocement is only the second company to receive a Gold Rating since the program officially began in 2002.
