Brief History: PT. Solusi Tunas Pratama Tbk. (STP) was established in 2006, taking advantage of the expected continuation of growth in the wireless communications industry which would drive demand for network infrastructure.

Since its humble beginnings, STP has since expanded through development and construction of telecommunication towers as well as acquisitions of other existing towers.

Boasting a large presence in Jakarta and Greater Jakarta in addition to concentrated areas of the country, STP has grown to be one of the leading providers of telecom tower infrastructure for telecom operators in Indonesia. We are currently updating this page.

At STP our primary focus is providing telecommunication infrastructure in strategic locations through long term business arrangements, supported with other tower-related services.

Our portfolio of wireless towers, as of December 31, 2010, consists of approximately 650 towers in Jakarta and approximately 500 towers Greater Jakarta and in concentrated areas of the country.

Our citywide network of communications infrastructure enables us to address the needs of national and emerging wireless service providers.

Our diverse site portfolio and our established customer base provide us with a diverse source of new business opportunities, which has resulted in consistent and predictable growth.
