

WASKITA KARYA (PERSERO) TBK.

Company Profile

The Company was first established as a foreign company under the name "Volker Aaneming Maatschappij NV" which later became nationalized State Company (PN) Waskita Karja on March 29, 1961, and the Company at the time was based in Jakarta.

Overall, projects sources from the government still present the most appeal. Civil projects are continually driven grow and justify investment in new resources (particularly construction equipment), while building projects still experience selective growth rate. The Company's primary product are building and civil construction, as well as EPC. These three types of service are offered to two principal markets, namely the government and private sector. The Company must continue to be selective and carefully weigh risks in accepting projects from private entities for the construction of buildings and civil items.

The Company is currently striving to expand its precast concrete business. The Company employs two means to meet its need for precast concrete, namely by procuring the same from external sources and by producing them internally.

The Company's strategy is realized by achieving the set targets in terms of contract value, revenue and profit, by employing the following strategies and policies:

- Continuing focus on the core business, supplemented by expansion into new markets in the relevant business sectors: precast concrete, realty and toll road investment;
- Focus on the government sector and potential civil projects, particularly large-scale infrastructure projects;
- Enhancement of competitive advantage through improvements in work systems and capital structure;
- Enrichment of experience through strategic partnering and EPC activities;
- Focus on the application of value engineering;
- Enhancement of profit margin through cost reduction programs and business diversification;
- Expansion of overseas market share;
- Upgrading of IT system through the use of the Microsoft Dynamic application.

The Company remains convinced that management preparedness, supported by good corporate governance, sustainable human resources development and programmed business strategies, will open opportunities for growth and contribute towards achieving an even better future for the Company.

The total number of employees at June 30th, 2016 was 1,434.

August 2016
