Initially operating as a major importer of glassware, Agus Nursalim founded the Kedaung Group in 1969 after realizing Indonesia's enormous potential of becoming a major glassware producer and exporter. Today, the Kedaung Group is one of the largest manufacturers of glassware in the world with production of 1,650 tons per day; this is equivalent to 10 million glass tumblers being introduced to domestic and international markets every day. With more than 6,000 basic items and approximately 120 production lines producing 600,000 tons per year, the Kedaung Group leads the world market due to the variety and quality of its products and, more importantly, because of their value for money. One of the Kedaung Group's greatest successes over the last ten years has been the development of the international market. An impressive 45% of the Group's products is exported with 25% of this figure being sold to the United States, Canada and Mexico; 5% to the European Community; and the remainder being exported to the Middle East, the Philippines, Australia, Africa and South America.
