

ADHI KARYA (PERSERO) TBK.

Company Profile

ADHI has managed to show its ability as a leading construction company in Southeast Asia, through competitiveness and proven experience by running successful construction projects. ADHI could not have achieved success without the support and participation of the public. ADHI plays an active role in developing CSR programs as well as the Company's Partnership and Environmental Preservation Program.

In accordance with the Long-Term Business Plan of ADHI 2012-2016, the Company plans for corporate activities in five business lines in order to increase the value of ADHI. Those business lines are Construction, EPC, Property, Realty and Investment in Infrastructure. In our core business lines of construction and EPC services, our business development strategy is focused on continuously enhancing our professionalism through quality products and timely deliveries. Here, the role of ALC (ADHI Learning Center) comes into the forefront. ALC has been in operations for more than a year, and its benefits are already felt. Through ALC, ADHI personnel are equipped with the passion to excel, and to always strive for quality by working intelligently and efficiently. With such passion, we form another subsidiary entity –specialize in building construction– Adhi Persada Gedung (APG).

In addition to the Construction and EPC businesses, the Company has operated and profited from the Property and Realty businesses through two subsidiary entities, namely Adhi Persada Properti (APP) and Adhi Persada Realiti (APR). Expanding from the Property business base, the Company has also made plans to develop four-star hotels in Blok-M area Jakarta, and Surabaya; and three-star hotels in Bekasi and Medan. This move is designed to strengthen our Property business structure in the future, in addition to reap the benefit of recurring income. Meanwhile, in the Realty business, we are adopting a strategy of not only developing landed houses, but also managing commercial areas (malls, lifestyle centers and shopping complexes) also with the aim of strengthening our recurring income. From the point of view of market demand, the need for precast concrete has grown significantly in support of major infrastructure projects. Modern project management also requires applications in precast concrete technology that can enhance project executions, whether in the form of concrete piles or other products. In order to manage the business professionally, independent, and fast emerging, the Company plan to establish a new subsidiary namely Adhi Persada Beton (APB).

As of June 30th, 2016, the Company and subsidiaries had 1,376 permanent employees.

August 2016
